

SENIOR CIVIL DESIGNER - HOUSTON OFFICE

COMPENSATION:

Salary - Based on Experience

Annual Bonus

401k Plan

IDCUS has an opening in its Houston office for a Senior Civil Designer with 15+ years of Design & CAD experience on TxDOT, county and city transportation and municipal projects.

JOB DESCRIPTION:

Prepares CAD design for roadway, traffic control, drainage, and traffic engineering to prepare plans, specifications and estimates (PS&E). Uses automated programs, including MicroStation and GEOPAK, in preparing plans. Uses additional automated design tools or specialized design procedures in areas including roadway/geometric design, cross-sections, drainage, culvert detailing and retaining wall layouts.

REQUIREMENTS:

- Graduation from high school or equivalent
- 15+ years of experience in previous plans for roadway, drainage, and traffic design
- Must be proficient in Micro Station and Open Roads
- Experienced in preparing schematic layouts
- Experienced on TxDOT projects
